THE ARMY MEDICAL LIBRARY

Washington, D. C.

THE ARMY MEDICAL LIBRARY
PHOTODUPLICATION SERVICE

The purpose of photoduplication is to extend the services of the Library to those at a distance who cannot come in person to consult its collections. In the case of the Army Medical Library it provides an economical and efficient means of contributing more largely to the advancement of medicine and the public welfare.

In order that photoduplication may render the greatest possible aid to those engaged in medical research, the following policies in regard to its conduct will be observed:

1. The Library will loan without charge single microfilm copies of original articles published in medical periodicals not available locally. Such loan requests should be routed through libraries, governmental agencies, or research institutions. The microfilm, being a part of the duplicate collection of the Library, may be used for ninety days and will be returned to the Library at the end of the loan period.
2. Requests for microfilms and photoprints for official business in the Department of Defense will be filled free of charge.
3. Microfilms will also be sold to those desiring to retain them, at a rate of 50 cents for each 50 pages or fraction thereof from a single article.
4. For the benefit of those not having facilities to read microfilms, photoprint copies of separate articles from periodicals will be supplied at a charge of 50 cents for each 10 consecutive pages or fraction thereof from a single article.
5. Except when the order is accompanied by the written permission of the copyright owner, the Army Medical Library will not reproduce books protected by copyright, or entire periodical issues, nor will it reproduce excerpts from periodical issues within 6 months of their publication date.

INSTRUCTIONS

All requests, including those for free loans, must be submitted on Army Medical Library official order blanks (AML Form 48). A supply will be furnished on request.

All purchase orders must be accompanied by payment in cash or by check or money order made payable to the treasurer of the United States, or by Army Medical Library Coupons, which may be ordered in any quantity from the Library at 50 cents each.

Federal agencies will be billed periodically by Standard Form 1080 (Voucher).

Refunds for material the Library is unable to supply will be made by coupons unless cash refund is specifically requested.

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price: \$3.00 per year (\$3.75 foreign); 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents.

Published weekly by the ARMY MEDICAL LIBRARY 7th Street & Independence Ave., S. W., Washington 25, D. C., as an intraservice publication of the Department of the Army. Lists all articles of medical interest contained in current journals received. Subject index provided monthly. Exchange invited.
